usdoi indian affairs - study of rights of way for energy

it is clear the indian tribes are being ripped off right and left in washington dc. it is clear that the present administration has let abromoff run wild and the indian tribes have been looted.

i think it is time we get some honest government in washington. is this another attempt to loot the indian tribes with smarmy stuff.

we are all sick of the corruption going on in washington. we want to know that somebody is honest.
