Attention: Section 1813 ROW Study  
Office of Indian Energy and Economic Development  
1849 C. Street, NW Mail Stop 2749-MIB  
Washington, DC 20240

Dear Indian Energy Office Staff:

On behalf of the Cherokee Nation additional time in which to submit comments on the referenced Legislation is respectfully requested. We request an additional 60 days to make formal comment. We have not been informed in sufficient time to study what is being proposed in order that proper and thorough response be given.

However, suffice it to say at this point that we are vehemently opposed to any change of regulations that will allow a right-of-way across any of our trust lands to be granted without Tribal consent.

Please telephone or notify me by e-mail immediately concerning this request for an extension of time to comment.

(The Arkansas Riverbed Authority is a tribal entity jointly created by the Cherokee, Choctaw, and Chickasaw Nations, to administer a 96 mile stretch of the Arkansas River jointly owned by the three member tribes.)
